St. Bonaventure's High School

PROJECTS

Jawad Rajper — 3D Artist Portfolio CLIENT [View Project](#)

HTML5 CSS3 JavaScript Particle Canvas EmailJS

- Dark cinematic portfolio for a 3D artist and product animator in Hyderabad.
- Particle canvas hero, custom lightbox gallery, scroll animations, and EmailJS contact form.
- Client actively uses the site to share work with their own clients.

Mahdi Restaurant — Food Ordering App [Live Site](#)

React React Router CSS3

- Interactive menu, table reservation system, and mobile-first ordering flow.
- Component-driven React architecture with clean separation of concerns.

Mahdi Blog — Blogging Platform [Live Site](#) [Source](#)

HTML5 CSS3 JavaScript

- Modern blogging platform with a rich text editor, comment system, and user authentication.
- Designed for clean readability and a content-first experience.

MavioMahdi — Ecommerce Platform [Live Site](#)

React Redux Toolkit React Router CSS3

- Responsive storefront with dynamic product filtering, cart, and checkout flow.
- Global state via Redux Toolkit; client-side routing via React Router.

SecureAuth Login System [Live Site](#) [Source](#)

HTML5 CSS3 JavaScript

- Secure authentication module with credential verification and session management.
- Clean dashboard access demonstrating form validation and UX best practices.

Mahdi Inkwell — Editorial Blog [Live Site](#) [Source](#)

HTML5 CSS3 JavaScript AOS

- Editorial blog with a strong design system and dark/light theme toggle.
- Clean typography, consistent spacing, and accessible semantic markup.

Mahdi Travels Agency Landing Page [Live Site](#) [Source](#)

HTML5 CSS3 JavaScript

- Visually striking travel agency page with destination guides and curated package deals.
- Interactive itinerary builder that drives user engagement.

Mahdi Cuts — Video Editor Portfolio CLIENT [View Project](#)

HTML5 CSS3 JavaScript

- Portfolio for a video editor and colourist, dark cinematic aesthetic.
- Interactive before/after comparison slider and smooth scroll transitions.

Mahdi's Hotel — Landing Page [Live Site](#) [Source](#)

HTML5 CSS3 JavaScript

- Luxury hotel landing page — dark theme with light/dark mode toggle.
- Pure HTML, CSS, and vanilla JS — no frameworks, responsive across all breakpoints.
